***The Call of the Wild* by Jack London**

This is an exciting story set in the wilderness of the Yukon during the 1890s Klondike Gold Rush. It tells the adventure of Buck, a dog who begins life as a pet in California but is suddenly tossed into the harsh Yukon territory. As Buck tries to survive, he learns to trust his instincts and discovers what he's truly capable of. During our book discussion, we'll pan for gold just like gold rush miners did during the Gold Rush of the 1890's.
